

IDIOT â€” Final Reconciliation Report

Generated: 2025-11-01T11:07:52.262Z

Scope

- Network: Base
- Token: 0xC29EF04CFFe38012dcfc1E96a2B368443f298dE1
- Wallets: OPS-Hot, LP-HOT, Ledger Cold

Findings

â€¢ Uniswap v2: No IDIOT/WETH pair detected by factory.getPair()

â€¢ Uniswap v3: No NFPM positions for scanned wallets. If NFT is in a Safe, rescan that Safe.

â€¢ Contract: ERC20, 18 decimals, constructor mint, no hidden transfer tax observed in provided source set.

Actions

- 1) If LP is intended to be visible, seed v3 position from the Safe and publish the position ID.
- 2) If LP exists on another DEX, add its factory to scanner and republish results.
- 3) Attach BaseScan receipts as appendices.
